EXPERIENCE

Digital Nest

IT Instructor | Technical Educator - *Part-time*

Watsonville, CA

Feb. 2026 – Present

- Led lab-based instruction on Windows administration, networking fundamentals, virtualization, and system troubleshooting with emphasis on real-world debugging workflows
- Mentored members through structured root-cause analysis exercises covering operating system failures, authentication issues, network misconfigurations, and performance bottlenecks
- Designed and developed Trackly, an internally adopted multi-tenant asset tracking platform supporting inventory management and operational workflows

TED AI

Software Engineer - *Part-time*

San Francisco, CA

Sep. 2025 – Nov. 2025

- Built and shipped production event pages for TED AI 2025 in React and Next.js, supporting registration, speaker, and schedule flows for a live public conference.

Gather

Product Engineer - *Contract*

Remote

Dec. 2024 – Mar. 2025

- Designed and implemented real-time spatial onboarding experience in React including audio cue system, auto-muting behavior, and presence indicators to reduce early-user confusion in virtual environments.
- Implemented interactive workspace UI system using React and Phaser, supporting live user presence rendering and synchronized environmental state across sessions.
- Developed avatar customization system including outfit selection, audio controls, and ambient conversation settings to increase user personalization during onboarding.
- Implemented real-time notification system for meetings and social interactions including desktop alerts and in-app engagement triggers.

Digital Nest (bizzNEST)

Senior Software Developer - *Associate*

Salinas, CA

Aug. 2023 – Nov. 2024

- Delivered client-facing web applications in a fast-paced agency environment, translating Figma designs into responsive production sites using React, JavaScript, WordPress, and PHP across multiple concurrent client projects.
- Developed internal job board tooling including search, filtering, and web scraping pipelines to automate content aggregation for staff use.
- Built a custom Stripe donation plugin with admin configuration tooling and dynamic donation UI components for client websites.
- Engineered scheduling platform for Career Services to coordinate recurring networking sessions and improve participant engagement.

Polaris Therapy (Reflex Integration Through Play)

React Native Software Engineer - *Apprenticeship*

Remote

Nov. 2023 – Jun. 2024

- Enhanced React Native application features and UX in collaboration with a small product team, delivering iterative improvements to child-focused therapeutic workflows.
- Improved mobile app performance by ~10% by implementing trie-based indexing and caching layer for exercise search, validated using Web Performance API and user engagement analytics.
- Built interactive memory-based game system with animation sequencing and playlist-driven exercise flows to increase user engagement and session completion
- Implemented subscription-based feature gating in React Native app, restricting access to premium content based on user entitlement state

PROJECTS

Cascarita

Jun. 2024 – Jul. 2025

Software Engineer | Startup Project

- Built digital player identity and check-in system for soccer leagues, reducing onboarding and card creation time by ~20%.
- Developed full-stack form management system with drag-and-drop builder and Stripe payment integration for league operations.
- Designed team roster and participation dashboard for league managers to track attendance and team composition.
- Integrated Sentry for production error monitoring and real-time debugging workflows.

TECHNICAL SKILLS

- **Core:** JavaScript / TypeScript, React, SQL, HTML, CSS
- **Frameworks and Libraries:** React Native, Redux, MobX, Next.js, Node.js, Prisma, GraphQL, WordPress, Phaser
- **Exposure:** Python 3, MongoDB, Sequelize, PHP
- **Developer Tools:** Git, Docker, DBeaver, Jira, Linear, Asana, Claude Code, Codex

EDUCATION

Cal State University Monterey Bay

Seaside, CA

Bachelor of Science, Computer Science | Summa Cum Laude | GPA: 3.95 /4.0

May. 2019
